BUT AS URSULA FRANKLIN
SAYS, "EVERY TOOL
SHAPES THE
TASK."

So be mindful of
how the tool shapes
the task. And that you only
find this out when you really
learn about the tool. Learn
what is in this Internet. But
then keep your head and
go back to your
goals.

When do you have
to go back to the
traditional tools of
talking to people face-
to-face, meeting with a group
of people... Because in the
end, what we are all
concerned about is
PEOPLE.*
